“Wait, this one’s a lawyer. We’d better wash our hands.”

This survey contains questions regarding your hand-washing behavior, and your thoughts on different methods that could be used to increase hand-hygiene. All information collected will be kept confidential.

Results from this study may benefit the college population, along with the general public, by supporting the need for hand-washing interventions in the design of public restrooms to increase hand hygiene.

You must be part of a college population (student, faculty, staff, other patrons, frequent visitor of college campuses) to participate.

A \$10 amazon.com gift certificate will be rewarded through a random drawing.

*** Remember to enter your name and email on the last page if you want to enter the drawing***

Thank You~~~~~
